## INS PRO MASTER IMAGING SUITE

**INS PRO Imaging:** print Declarations, Bills, Cancellations and Reinstatements to a PDF file. Refreshed History File maintains exact copies of the printed materials processed through the system.

**INS PRO DocFinity Interface:** assists you with indexing scanned documents and provides a policy and claim link with the DocFinity files for immediate access to associated documents.

**INS PRO Archiving:** prints system reports to a PDF file and provides an on-line catalog for easy storage and access of all reports.

**INS PRO Email:** no need to print agents copies of Declarations, Cancellations, Reinstatements, Commission Statements, Agent Experience and other reports. Agent's and Adjustor's copies are automatically emailed.

- **INS PRO** System flexibility allows the **INS PRO MASTER IMAGING SUITE** to be licensed as a group for a **Discounted Price** or may be licensed individually.
- Paper costs \$2.69 - \$5.09 a ream. How many reams do you use in a week, month, or year? Add the printing time, ink and postage. The added time it takes your staff to sort, file, and access all that paper could be better used for other work.
- Allow the **INS PRO** System to work for you. Start saving money while reducing your expense ratio immediately.

Everything you need from an INSurance PROcessing System and more!
