

Client Login Security

As a security practice, TCCS is requesting our clients to update their User Name and Password selections to access the Client Login link on our TCCS website. Please call our office with your new User Name and Password; or email them to us in two separate emails. They should be different than your previous selection (*password should be more than 8 characters long and include at least one of each: upper case letter, lower case letter, a number and a symbol*). Once you are set with your new user name and password, don't forget to download the latest version of INS-eMAN (2017.2).

Status Reports Information

How to Read Policy/Premium/Accounting status reports is a handy reference; and it is now included in the latest version of INS-eMAN. *Downloadable from our Client Login.*

A-Plus Service

For Web Quoting clients, A-Plus Service is now available for download into the Web Quoting application. Call us if you would like to license this option.

INSPRO 5.0

Update 5.0 is available for installation. Please let TCCS know if you are interested in receiving it (we are now scheduling about three months out). Included with the update is the ability to email declarations to two different emails per agency; one for personal decs and one for commercial decs.

Did You Know?

Email capable INSPRO programs (full list available in INS-eMAN) can be emailed to two people in an agency at the same time? In Agent File Maintenance, key F3 to select the program. In the email address field, key in first email address;second email address (*no space after the semi-colon*).
